DETAILED ACTION

Response to Amendment

1. This action is responsive to the Amendments filed 19 August 2004. Claims 1-11 are pending. Claims 9-11 are new.

Allowable Subject Matter

2. Claims 9-11 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1-4 and 9-11 are allowable over the prior art because a simulation method of analyzing electromagnetic interference developing in an LSI, comprising a correction step of correcting the amplitude of a current estimation waveform in each simulated node which has been previously prepared for each change in each simulated node, in accordance with the probability of variation in each simulated node is not found, taught or suggested in the prior art of record.

Claims 5 and 6 are allowable over the prior art because a method of analyzing electromagnetic interference developing in an LSI, comprising: a waveform formation step of forming a current estimation waveform which has been prepared for each change in each simulated node, as if the waveform randomly arises within a plurality of predetermined cycles, in accordance with the probability of change in each simulated node and a time at which a signal arrives at each simulated node is not found, taught or suggested in the prior art of record.

Claim 7 is allowable over the prior art because a method of analyzing electromagnetic interference developing in an LSI, comprising: a waveform formation step of forming a current estimation waveform which has been prepared for each change in each simulated node, as if the waveform randomly arises within a plurality of predetermined cycles, in accordance with the probability of change in each simulated node and a distribution probability of time is not found, taught or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
